Police Headquarters,
STOCKHOLM,
SWEDEN

Dear Sir,

I note that the killer of the Beloved Mr. OLOF PALME has still not been found.

As Mr. Palme was such a good man in the eyes of the whole world that I decided to make a research of my own in the matter, and my conclusions which I believe are quite correct are as follows:

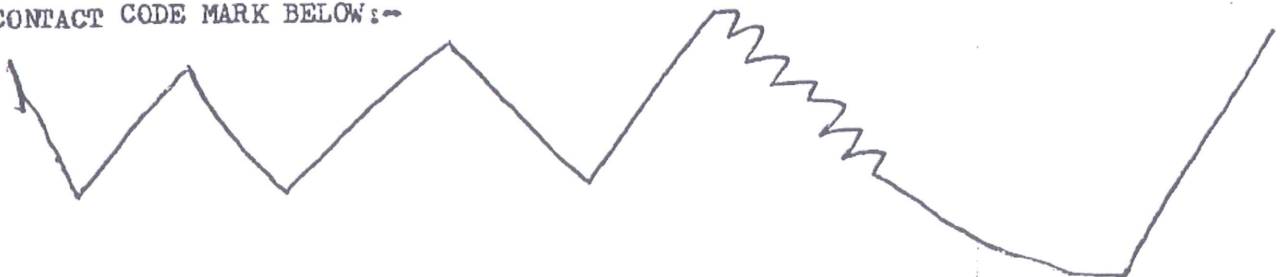

The same man who gunned down the leader of the Seychelles Government Exile Mr. [REDACTED] in London is also responsible for the Killing of Palme. He is a Hit man and was paid to kill Mr. [REDACTED] for political reasons, and Mr. Palme was killed for reasons of passion, that is for the love of the same woman; BUT SHE had nothing to do with the murder. I will explain. After Killing Mr. [REDACTED] in London he went straight to Stockholm as planned and directed through the Embassy concerned.

The ASSASSIN is an Englishman named "SMITH", BUT ALSO has many other aliases. The British Police, and Scotland Yard etc knows who he is and that he killed Mr. [REDACTED] but does nothing about it, because he now lives without fear in Seychelles under the protection and patronage of the man who paid him to carry out both murders. This high personage has also done the same thing before i.e., murdered for passion by arranging the killing of Mr. Mike Savy the husband of his present wife in Seychelles by sabotaging his aeroplane. He got the 'plane mechanic called [REDACTED] to tamper with the 'plane, and this man now lives in Canada: [REDACTED], Canada.

It is obvious that you will not be able to approach "Smith" in Seychelles as he may 'disappear' forever "without trace", so he may have to be lured or kidnapped out somehow. As I now live in Seychelles in order to watch the situations I also have to protect myself from being Killed. So when you are sure or able to apprehend the assassin please put a photostat print of the code MARK at the bottom of this letter on the notice of the Seychelles Yacht Club with YOUR name and code address in Stockholm and I will contact you by the same code print out at the bottom of this letter. Please do not trust anyone in Seychelles in this matter, in Seychelles "the walls have eyes and ears" and knows what your agent does.

For my own Security I am unable to sign or give my address, it is to follow my directions. I am sure that/research has completely surprised you and I trust that I can qualify for a reward if something can be done about it.

CONTACT CODE MARK BELOW:--
